

Your journey. Your way.

Our story

We are **Penumbra Mental Health**, a pioneering charity providing dedicated services for people with mild to serious and enduring mental ill health.

We support people on their journey to better mental health, by working with each person to find their own way forward. The power of people's lived experience enables us to deliver pioneering services which transform lives.

From being there for people in crisis to suicide prevention, supported living to self-harm management and peer support. We are with those we support every step of their journey to a better place. People's experiences are at the centre of everything that we do. **We champion peer workers**; they know that recovery is possible, because they've been there too.

Of course, **everyone's journey is different**, so we work with people to identify, believe in, and reach their goals, whatever they may be. Often, it's about hope, but we know that's not always easy for people to hold on to. And so, when times are tough, we hold it for them, keeping it safe - just until the time is right.

You see, Penumbra has always been about people; listening and learning, challenging, encouraging and enabling. It's why we're trusted to provide services across Scotland, supporting thousands of people every month, because when people need us, we're there.

Our vision is that people live with positive mental wellbeing and can easily access the best support when they need it.

Our mission is to provide exceptional mental health and wellbeing support and activities, guided by people's own lived experience, their recovery journeys and their hopes and aspirations.

We live and breathe our values

- 🌀 Compassion: we will listen and respond with hope, kindness and respect
- 🌀 Courage: we will do the right thing, standing up for people, their rights, wellbeing and recovery
- 🌀 Curiosity: we will explore, reflect, learn and adapt to create solutions that are best for people's wellbeing
- 🌀 Collaboration: we will work with those who share our vision and values

interview might vary between roles and services (for example, some may include written questions) but this will be explained to you ahead of time.

All of our interviews include competency-based questions. Competency Based questions aim to find out how you have used specific skills in your previous experience and how you approach problems, tasks and challenges.

The competency based questions will be on each of the competencies outlined in the person specification of this pack. We would recommend preparing a few examples of times you have demonstrated each of these competencies in advance. When answering the questions, you should try to stick to the STAR method, outlined below.

STAR Method

The STAR method can be used to structure your answer to the competency-based questions you'll be asked – it helps you to make sure you get all of the important points across. It breaks an answer down into 4 parts:

- Situation** – What was the situation you had to deal with?
- Task** – What task were you presented with as a result of the situation?
- Action** – What action did you take?
- Result** – What was the result of this action, what did you learn from the result?

Here's an example of the STAR method in use:

Question

Tell me about a time you had to deal with a conflict. How did you handle it?

Answer

- Situation** I was part of a team where one colleague was regularly late for our scheduled meetings, which was causing a lot of frustration amongst the rest of the team.
- Task** I knew it was important someone raised the issue with him in order to keep the team working well, so I took responsibility for handling it.
- Action** At the end of one of our regular meetings, I asked if he had a minute to catch up. I mentioned to him that he seemed stressed, and that he had been late to quite a few of our meetings and explained the impact it was having on the team. I expressed that we all really valued his input at the meetings, and asked if there was anything causing the lateness or if there was anything the team could do to support him. He shared that

he was overwhelmed with his workload, and it was impacting his ability to manage his time.

Result

By handling this conflict sensitively and in a supportive manner, we were able to identify what was causing the issue, and distribute some of our colleague's extra workload amongst the team. This took the pressure off him and enabled him to manage his time more effectively. This in turn meant the team was able to work together more efficiently and we didn't miss out on anyone's input.
